

Community Connections – First Energy

The Community Connections Program, helps eligible Ohioans reduce their electricity usage in their home. We provide in-home audits and install appropriate electric energy efficiency measures to reduce electric usage. These measures may include replacement of refrigerators, freezers and ranges at no cost to the customer. Customers also receive information on how they can reduce their electric use and improve their home's efficiency.

Who is Eligible?

Customers living in Marion, Morrow and Crawford Counties are eligible for First Energy Community Connections Program if they have a total household income that is at or below [200%](#) of the federal poverty guidelines.

To be eligible for the program, customer must also have 1 month of electric usage at their current address.

*This is an appliance replacement program. First Energy (Ohio Edison) clients only.

For more information, contact the Energy Office at (740) 387-9703.
